

# (Canine<8Y) GRAND PET©DENTAL PLAN

**CANINES UNDER 8 YEARS OLD (50 years and under in humans) UNDER 10 LB DENTAL RELEASE**

Good dental hygiene is just as important for your pet's health as it is for yours. Tartar and plaque formation leads to gum disease, oral infection and, eventually, tooth abscess, which can cause your pet **unnecessary pain**. Even more dangerous, however, is the shedding of bacteria from the infected teeth into the blood stream. These bacteria can lead to kidney problems, as well as liver and heart disease, which is expensive to treat and may **shorten you pet's life**.

**Laboratory and ECG tests** before an anesthetic or surgery, can help make us aware of unknown medical conditions that may make your pet a poor surgical risk, or indicate an increased likelihood of an adverse reaction to the anesthetic agent. In addition, these tests can help us discover many problems early on, before they cause unnecessary pain, expense... or worse.

## GRAND PET © DENTAL PLAN

## OWNER CONSENT: REQUIRED FOR ALL PATIENTS

I understand that I am requesting a general anesthetic or major surgical procedure for my pet. I understand that some risks are involved that can be reduced by the above recommended tests. I am encouraged to discuss any concerns I have about those risks with the attending doctor. I certify that no guarantees had been made regarding the results that may be achieved. I further understand that refusal of any of the recommended tests removes any liability of GPCC, its doctors or staff. Should unexpected life-saving emergency care be required and the hospital is unable to reach me, the staff has \_\_\_ does not have\_\_\_ (check one) my permission to provide such treatment and I agree to pay for such service. I have read and fully understand the above terms and conditions set forth above. I agree to pay a deposit of \_\_\_% of the estimated fees, assume financial responsibility for the remaining fees, and provide the remaining payments at the time my pet is discharged from the hospital.
