

Cat Spay (Cat ≥ 8Y) GRAND PET CARE CENTERS

FELINES 8 YEARS AND OLDER (50 years and older in humans) / SPAY SURGICAL RELEASE

Ovariohysterectomy is a surgical procedure, which involves removing both the uterus and the ovaries. Your pet will be unable to reproduce after this surgery, or go into "heat". This procedure can help to prevent cancer of the mammary gland (breast cancer) and diseases of the ovaries and uterus (Pyometra, sexually transmitted diseases, etc). Spaying your pet is best performed before the first "heat" (6-9 month of age) This procedure requires a general anesthetic, the depth of which must be closely monitored. **THIS IS NOT A SIMPLE ASSEMBLY LINE PROCEDURE.** Several large blood vessels must be ligated, and sterility must be maintained to prevent infection.

Laboratory and blood pressure tests before an anesthetic or surgery, can help make us aware of unknown medical conditions that may make your pet a poor surgical risk, or indicate an increased likelihood of an adverse reaction to the anesthetic agent. In addition, these tests can help us discover many problems early on, before they cause unnecessary pain, expense... or worse.

OWNER CONSENT: REQUIRED FOR ALL PATIENTS

I understand that I am requesting a general anesthetic or major surgical procedure for my pet. I understand that some risks are involved that can be reduced by the above recommended tests. I am encouraged to discuss any concerns I have about those risks with the attending doctor. I certify that no guarantees had been made regarding the results that may be achieved. I further understand that refusal of any of the recommended tests removes any liability of GPCC, its doctors or staff. Should unexpected life-saving emergency care be required and the hospital is unable to reach me, the staff has ___ does not have ___ (check one) my permission to provide such treatment and I agree to pay for such service. I have read and fully understand the above terms and conditions set forth above. I agree to pay a deposit of ___% of the estimated fees, assume financial responsibility for the remaining fees, and provide the remaining payments at the time my pet is discharged from the hospital.
